

Modeling with Mathematics

A Math Workshop Series Presented by the Lesley University Center for Mathematics Achievement

The Center for Mathematics Achievement is holding a year-long series of workshops focused on helping teachers incorporate **mathematical modeling as an instructional tool**.

These workshops **may be taken for PDPs!**

Thursday October 2, 2014
4:30 – 7:30 PM
Cost: \$20 per person
Light refreshments provided

Using Models to Clarify
Why Abstract Formulas Work
*Dr. Anne Collins, author of the 50
Leveled Math Problems series*

Saturday, October 25, 2014
9:00 AM – 3:00 PM
Cost: \$60 per person

Modeling with Impact: Utilizing
Powerful Modeling for Key Math
Concepts in Grades 3-8
Adam Deleidi – Revere Public Schools

Saturday, December 13, 2014
9:00 AM – 3:00 PM
Cost: \$60 per person

That's Modeling? Highlighting examples
of mathematical models, and
encouraging models in student work in
the middle school classroom.
Sheri Flecca – Newton Public Schools

More workshops will be announced for Spring 2015!

The Details:

Where: The workshops are located here at Lesley University, 1815 Massachusetts Ave, Cambridge, MA 02138.

Discounted parking is available, but parking is limited. We are steps away from the Porter Square station on the MBTA Red Line and Commuter Rail.

How: To register, just click on the link below.

[Click here to register for one or more of the 1st 3 workshop sessions](#)

Steve Yurek (syurek@lesley.edu) (617) 349-8938

We look forward to having you join us for this opportunity!
