

## TODOS: MATHEMATICS FOR ALL

The mission of *TODOS: Mathematics for ALL* is to advocate for equity and high quality mathematics education for all students—in particular, Latina/o students.

---

TODOS: Mathematics for ALL is an organization that seeks to create a more just, humanizing and equitable mathematics education experience for all. Regardless of your political views, we cannot let our differences overshadow our humanity toward each other. We recognize that the current political climate may affect how we move forward as a people that value democracy and justice for all. We must find strength and resolve to reach out to people hurting, scared and uncertain of their futures. We must find ways to support educators to hold space for listening, emotions, and deeper understanding. We have much work to do.

We reiterate here our TODOS mission and goals. In the present political climate we interpret these as including the following:

- Respecting and incorporating into our mathematics programs, the role language and culture play in teaching and learning mathematics.
- Supporting teachers who need help navigating the political and emotional situations occurring daily in their classrooms.
- Generating and disseminating knowledge that supports our mission of advocacy for all students.
- Informing the public and influencing educational policies that protect our students and enhance the educational experiences of all of our students.
- Informing families about the opportunities available to their children and working continuously and ardently to enable these children to become mathematically proficient.

As mathematics educators we will continue to stand by our students and their families, advocate for them, and work in any way possible to ensure and affirm their futures.

A handwritten signature in black ink that reads "Diane Kinch".
